Join us for a First Signs train-the-trainer workshop immediately following a regional pediatric training. Enhance your local Child Find and outreach efforts. We'll give you the tools and tips to educate medical professionals in your community about best practices in screening and referral of young children at risk for autism and other developmental disorders. Each attendee will receive a First Signs Screening Kit, handouts, and access to PowerPoint presentations. You'll leave with a plan you can put into action for your community. Topics include: successful ways to achieve community outreach, scheduling and planning meetings, and measuring results. Attendees of the First Signs train-the-trainer workshop are required to attend a First Signs regional training first. CEUs are available.

## Regional Pediatric Training Dates:

Sign up early for a First Signs regional training, "Improving Developmental Screening Practices for Young Children With Autism & Other Developmental Disorders", and receive a reduced rate.

**Register online at**

**[www.cciu.org/firstsigns](http://www.cciu.org/firstsigns)**
